 **EURO
CHILLER**[®]
INTERNATIONAL COOLING

OUR *philosophy*

OUR *philosophy*

THERE'S NO KNOWLEDGE,
without experience

Knowledge has its roots in
experience.

Since **1990** we are committed
in understanding and learning
processes to cool and control
them **at the best.**

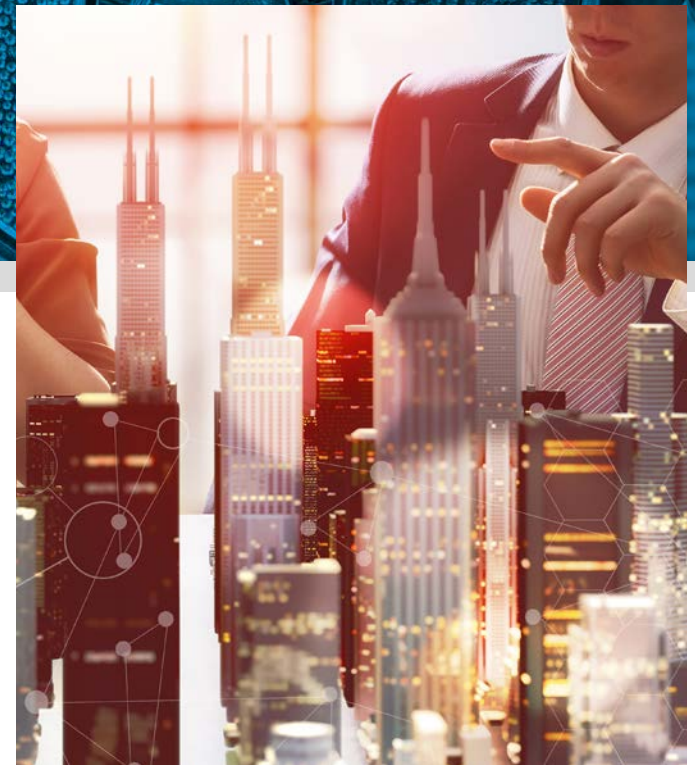

OUR *philosophy*

WE LOOK AT THE WORLD FROM *the customer's point of view*

Eurochiller tests itself daily to try to improve every single product according to the demands of the customer, of the market and of the environment.

Our mission is that of

manufacturing state of the art, **efficient products** and to be able to offer **highly technological** and **functional global solutions**.

OUR *philosophy*

SUSTAINABILITY ISN'T PART OF OUR WORK *it's a guiding influence for all of our work*

We are committed to **social and environmental responsibility**, to ensure an **ecologically sound and secure future**.

Our products and services are developed **responsibly**, and are designed to **work in harmony with the environment for long-term sustainability**.

OUR *values*

OUR *values*

COMPETENCE

The know-how is the core OF OUR **PROPOSAL**

We **supply competent support** and accompany our customers from the choice of their system to its installation.

We are **customer-oriented** as we aim to **supply a solution** allowing

the end-user to improve and enlarge his presence in its own market.

OUR *values*

FLEXIBILITY

The ability to adapt
TO THE CUSTOMER'S NEEDS

Flexibility governs our actions.

We supply **solutions** which are specific for each single application and **flexibly adapt** to the customer's needs to boost his production.

COOLING SYSTEM FOR PIPE EXTRUSION PLANT

INSTALLATION: **K.S.A.**

UNITS INSTALLED: **14**

COOLING CAPACITY SUPPLIED: **13 MW**

OUR *values*

INNOVATION

Ideas: **THE MOST VALUABLE PROPELLANT OF THE WORLD**

We believe in the power of **innovation and work every day** to enlarge our knowledge and share it with our customers.

The world changes and we do it too, **innovating and improving** our proposals.

OUR *values*

TAILOR-MADE SOLUTIONS

Our dreams LOOK AT **YOUR WISHES**

Eurochiller's philosophy starts from design: our target is that of **growing together with the problems** we'll meet on our way in the years to come.

This is the reason why we do not want to lose one of our **most distinguishing features: that of problem solvers.**

OUR *values*

ENERGY SAVING SOLUTIONS

The importance OF ENERGY SAVINGS

We work since ever on **efficiency** and look for solutions **reducing energy consumption** and lowering their impact on the environment

COOLING SYSTEM FOR PACKAGING FOOD PLANT

INSTALLATION: **SERBIA**

UNITS INSTALLED: **ADIABATIC CHILLERS & COOLERS**

ENERGY CONSUMPTION: **1/5 OF THE ENERGY
USED BY CONVENTIONAL CHILLERS**

OUR *values*

ENERGY SAVING SOLUTIONS

____ **1991**

First chiller with
integrated free-cooler

____ **1996**

Development of dedicated
software for free-cooling control

____ **2002**

Use of the Inverter
on **ABF line**

____ **2008**

Introduction of
self-draining **TFC**

2010 ____

Presentation of **AMK**, the
free-cooling system for ABF

2012 ____

Launch on the market of
ADcooler, adiabatic coolers

2014 ____

Launch on the market of
the **ADXevo**, adiabatic chillers

____ **2015**

Presentation of
ICEtemp

____ **2016**

Presentation of
ABF-AGRI line

____ **2018**

Presentation of the
new **ABFevo line**

OUR *values*

QUALITY

EUROCHILLER MEANS *quality AND responsibility*

Quality in Eurochiller means **method and responsibility** during the various stages of the **production cycle**: from the **choice** of raw materials to the **organisation** of production, from

the **relationship** between **functions, energy efficiency and aesthetics** of the products to the maintenance and the service. **Our mission is to stick to the principles** which determined

our success: quality, passion, innovation and exchange of views with the world.

OUR *values*

RELIABILITY

NO MATTER WHERE YOU ARE,
WE ARE *close to you*

Our response to any problem is **rapid**, both on national and on international level.

Every order is looked after **from start to finish** and the customer is **never left alone** and he may

rely, on a skilled and quick after-sales technical service, able to carry out **any intervention on our units**, from the **start-up** of the most elaborate plant to **routine maintenance**.

OUR *products*

OUR products

COMPLETE AND TECHNICALLY *perfect solutions*

Process air and water chillers, temperature controllers, process air dehumidifiers **able to meet whatever demand.**

Eurochiller products are state of the art units with special and diverse characteristics, according to the use.

A wide range, complying with the needs of a market always looking for the **best performances and absolute reliability.**

OUR *products*

EUROCHILLER ON-AIR

Our **remote control system**:
no matter where you are,
we keep our **eyes on your**
production.

EUROCHILLER

A photograph of a large industrial facility, likely a Eurochiller factory or warehouse, with a blue-tinted overlay. The building has multiple sections with corrugated metal siding and large glass doors. A sign on the right side of the building reads "EURO CHILLER".

EUROCHILLER

The strength OF THE GROUP

The **Eurochiller Group** comprises industry leading specialist companies that come together **to offer** its customers world class products and services of **the highest quality**.

Our **teams of experts** deliver **innovative solutions** and provide specialist skills for cutting edge projects.
